"At Your Service for the 42nd Year"

THE PAGE SEED COMPANY
GREENE - - - NEW YORK

Greene, N. Y.

February, 1938

Gentlemen:—

Our 42nd Annual Price List is presented for your consideration in the belief that you will find listed many of the items that you will need for your spring trade. This list contains prices for Dealers only or those who resell to the user or planter. We expect these prices will prevail throughout the spring, but they are subject to change. Orders will be entered at the prices prevailing on the date received. If you are a buyer of large amounts, we will be glad to quote on the basis of your requirements.

Terms on orders are:—Vegetable Seeds—Net Cash. June 1st, 1938, to those of approved Credit Rating. F. O. B. Greene. Containers at cost. Onion Sets, Clover, Grasses, Field Seed and Law~~n~~ Mixtures are Net Cash. F. O. B. Greene. Seed Corn—Draft with Bill of Lading, Freight paid in bag lots, Bags free.

There are only a few crop failures, but some kinds are nearly sold out with us. In case of a big demand on these varieties, we may have to advise that we are "Sold Out". For that reason we suggest that you place your order early.

All Seeds shipped out by us are sent out with the understanding and agreement that "The Page Seed Company gives no warranty express or implied, as to purity, description, quality, productiveness, or any other matter of any seeds, bulbs, or plants they send out, and will not be in any way responsible for the crop". Also that the purity and germination given is for information only, and that we assume no civil liability.

BEANS

Bush varieties of Beans are one of our leading specialties. We devote considerable acreage to them each year in New York State, where both soil and weather conditions are usually ideal. By thorough roguing we are able to keep our seed stocks to a high degree of purity, and thus our seeds are satisfactory to critical dealers and planters. 120 pounds to the bag.

LAWN GRASS MIXTURES

When planting a lawn, we believe that the best is none too good, for there is no sense in planting weeds or inert matter. Weeds will appear even under the best conditions and in spite of all care taken. Inert matter may provide some plant food, but the commercial fertilizers are much better. Every house-owner wants seed that will produce fine lawns. We aim to put out mixtures as pure from weed seed and inert matter as we possibly can. Buy for quality, not for price, and the results will be all that anyone can desire.
